2. About kit

Since the foundation in 1980 as a university specialized in engineering, kit has cultivated practical and creative engineering talents necessary for the development of national industry. To make a big push, kit has been committed to the growth of students, faculty members, regional communities, and national scientific technology through the advanced curriculum and education programs. kit has been recognized for having infinite potential for growth, a high-quality practical education system, and a high employment rate.

We set a new goal to become an R&BD specialized university for cultivating creative engineers. Therefore we are going to elevate the status as the most powerful national engineering university by developing scientific technology and multi-functional talents, leading the industry academy cooperative research based on challenging and creative spirits, and becoming a glocal (global+local) university with regional communities.
